EXPERIENCE

Software Engineer

Tulip

July 2021 – Ongoing

Munich

- Enable customers to generate insights from data collected in the shop floor across production lines.
- Overhaul design of our machine monitoring product (Meteor, React, Redux)
- Adapt the development environment to run on the Apple silicone chip (Kubernetes, Bash, Docker, Postgres)

Data Engineer

Scalable Capital

Oct. 2019 – Jun. 2021

Munich

- Implemented ETL pipelines feeding a Data Warehouse from various sources (AWS, Salesforce).
- Lead adoption of metabase a self-service BI tool with regular workshops and internal education.
- Founding member of the clean code guild sharing best practice

Fullstack IoT Developer

Hilti GmbH Industriegesellschaft für Befestigungstechnik

Aug. 2018 – Sep. 2019

Kaufering

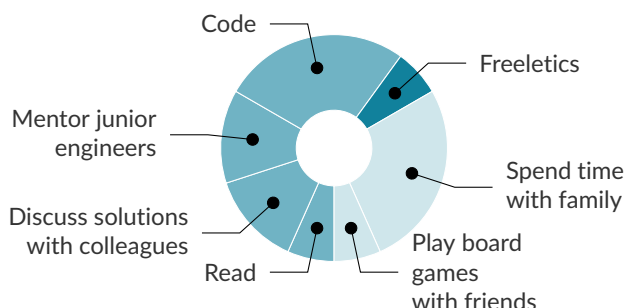

- Developed a Data Warehouse to offer a single source of truth across departments.
- Introduced the team to version control with git and Atlassian Tools such as Jira, Confluence and Bamboo

PROJECTS

Android App: Einbürgerung Deutschland

An open source Android App with which the user can prepare themselves for the German Citizenship Test. Published in the Play Store.

A DAY OF MY LIFE

LIFE PHILOSOPHY

"Empathy first"

MOST PROUD OF

My courage

to leave my corporate job and join Scalable Capital right before my son was born

Graduation in psychology

within three semesters of presence

Continuous effort

to become a software engineer

STRENGTHS

Candid

Attentive

Solution-oriented

Open

Curious

Python

Typescript

React

Kotlin

SQL

AWS

TDD

DDD

LANGUAGES

English

German

Turkish

Spanish
