## EXPERIENCE

### Software Engineer

#### Tulip Interfaces

July 2021 - Ongoing

Munich

- Shipped the replacement of a charting library, reducing bundle size by 40%
- Built caching OPC UA server data to enable users to search nodes
- Adapt the kubernetes dev env to run on the Apple silicone chip
- Contributed to 21 RFCs across teams
- Architected the integration of machine learning features into the platform
- Introduced code ownership to the engineering organisation
- Lead the refactoring of a deserted code base to a maintainable state
- Awarded Captain of Tulip Q3 2022
- Onboarded 4 engineers, Mentor to 3 junior engineers

Typescript

React

Meteor

Storybook

Mongo

Postgres

### Data Engineer

#### Scalable Capital

Oct. 2019 - Jun. 2021

Munich

- Implemented ETL pipelines feeding a Data Warehouse from microservices using AWS SQS and AWS SNS
- Lead adoption of metabase as a self-service BI tool with 100+ users unlocking data driven decision making with monthly workshops
- Founding member of the clean code guild
- Conduct >50 engineering interviews and review test assignment

Kotlin

Java

Python

AWS SNS

AWS SQS

Airflow

Terraform

### Fullstack IoT Developer

#### Hilti GmbH Industriegesellschaft für Befestigungstechnik

Aug. 2018 - Sep. 2019

Kaufering

- Designed and implemented a Data Warehouse to offer a single source of truth across factories
- Digitised 5 production lines, enabling real-time monitoring
- Introduced software engineering best practice (git, testing, code reviews)

C#

SQL

PowerBI

Javascript

Zenon

## OPEN SOURCE

### Recharts

- Authored 45 PRs, migrating existing documentation to Storybook
- Introduced storybook test runner to unlock visual regression testing

### Android App: Einbürgerung Deutschland

- Implemented an Android App to prepare for the German Citizenship Test
- Published in the Play Store.

## MOST PROUD OF

#### My courage

to leave my corporate job and join Scalable Capital right before my son was born

#### Graduation in psychology

within three semesters of presence

#### Continuous effort

to become a software engineer

## STRENGTHS

Python

Kotlin

Typescript

Javascript

React

Redux

Node

Docker

Mongo

SQL

AWS

Terraform

Storybook

TDD

DDD

## EDUCATION

### M.Sc. Computational Engineering Science

#### Technical University Berlin

2015 - 2018

### B.Sc. Psychology

#### University of Vienna

2013 - 2015

### B.Sc. Mechanical Engineering

#### Technical University Stuttgart

2009 - 2014

## LANGUAGES

English

German

Turkish
